

ESSA YOUNG ENTOMOLOGISTS' TRAVEL GRANTS

As part of its aim to promote all aspects of entomology, the Entomological Society of Southern Africa (ESSA) initiated the Young Entomologists' Travel Grants scheme in 2018. The grants support young ESSA members from southern Africa to (i) present research results at international scientific meetings or workshops with entomological relevance, or (ii) gain valuable entomological skills and experience by visiting an international research group.

This includes support for knowledge exchange between countries within the Southern African Development Community. By doing so, the ESSA hopes to support the development of professional entomologists and to broaden the range of skills and global relevance of research undertaken in southern Africa.

Each year, a number of ESSA Young Entomologists' Travel Grants, each to the value of up to R25,000, may be awarded.
